**DIMEX DIMLOG**

**Deima Srl** was founded in 2006 to meet the precise logistics and shipping needs of the market, combining technological innovation with the competence and focus of its staff, to provide a service designed and tailored to client needs.

**Deima's** goal is to act as a one-stop shop for the company in the logistics and shipping field: a synergistic relationship that optimises resources, improves timing, facilitates communication and reduces costs.

## TRUE BEAUTY IS ON THE INSIDE

Cosmetic products are of great value but are also extremely delicate. Even the very sophisticated secondary packaging is generally very fragile. It is therefore essential for transportation to be carried out with the utmost care and complete security, so that the customer can receive the product in an ideal condition.

This is why Deima has developed special procedures of its own exclusively for cosmetics companies.

### **TOTAL SECURITY:**

Deima's Priority & Security Pack provides for the priority of embarkation of shipments and the supply of special Burglar-proof seals, with holographic band and optical-read barcode, to fully guarantee the integrity of the shipment and the originality of the product.

### **SPECIAL CARE:**

**Deima** puts cosmetics products in special containers that limits excessive overlaps and ensure the packaging remains intact along the entire shipment route, so that the products reach the recipients without a scratch.

A large, vertical hourglass is positioned on the right side of the page. The top bulb is partially filled with white sand, and a stream of sand is falling through the narrow neck into the bottom bulb. The hourglass is made of clear glass, and the sand is a fine, white powder. The background is a light, neutral color.

## **TIME:** **YOUR MOST PRECIOUS RESOURCE**

We know that, in an increasingly globalised market, with an ever more hectic pace and increasingly complex needs, there is a resource that represents enormous wealth for companies, which is increasingly diminishing: **TIME**.

Deima's innovative procedures have been designed and optimised precisely to ensure total efficiency of the workflow, which translates into minimising the use of time and resources by the client.

## **WE TAKE RESPONSIBILITY**

Technology provides multiple solutions to let clients perform most of the functions related to logistics: tracking shipments, unblocking stocks, etc.

Deima instead acts in a totally different manner: we directly keep everything under control on a daily basis and we intervene promptly to solve every type of need and problem, without forcing the client to make an additional effort.

For Deima, the certainty of a job done to perfection.  
For the Client, a considerable saving of time and resources.

## **WE PUT OURSELVES ON THE FRONT LINE**

More and more in the logistics market, the tendency to automate assistance services is growing, through toll-free numbers, automatic responders and chatbots.

Also in this case, Deima operates in a diametrically opposite way, providing a totally personalised direct assistance service.

Each client has an assigned manager, with a name and surname, who ensures continuity and efficiency by following every type of need and problem.

For Deima, the certainty of a job carried out with competence and reactivity. For the Client, the guarantee of having a direct line always available for any need.
