

DEIMA
SRL

CUSTOMISED
LOGISTICS
and
SHIPMENTS

DIMEX DIMLOG

Deima Srl was founded in 2006 to meet the precise logistics and shipping needs of the market, combining technological innovation with the competence and focus of its staff, to provide a service designed and tailored to client needs.

Deima's goal is to act as a one-stop shop for the company in the logistics and shipping field: a synergistic relationship that optimises resources, improves timing, facilitates communication and reduces costs.

MORE VALUE FOR YOUR CUSTOMERS

In an increasingly global and complex market, logistics is a key element to make your company competitive and efficient. Customers always want to receive their products in a quick, secure, inexpensive and convenient manner.

It therefore becomes essential that the logistics service is designed in the best possible way and optimised according to the needs of the company, to highlight the competitive advantages of the products and ensure the highest level of satisfaction of end customers.

This is why Deima does not simply provide 'logistics services', but supports your company to design, together, the best procedures in relation to the company's objectives and to actually provide more value to your customers.

TOTAL SECURITY:

Deima's Priority & Security Pack involves the priority of embarkation of shipments and the supply of special anti-burglary seals, with holographic stripe and optical reading bar code, to fully ensure the integrity of shipments and the originality of the products.

MAXIMUM FLEXIBILITY:

Deima is able to provide Express Services without weight or volume limits.

STORAGE EXCELLENCE:

Deima has big warehousing facilities for holding goods that can handle any types of goods. With its innovated and completely automated system, **Deima** protects the quality and intactness of products and provides an extremely efficient and fast service.

A large, vertical hourglass is positioned on the right side of the page. The top bulb is partially filled with white sand, and a stream of sand is falling through the narrow neck into the bottom bulb. The hourglass is made of clear glass, and the sand is a fine, white powder. The background is a light, neutral color.

TIME: **YOUR MOST PRECIOUS ASSET**

We know that, in an increasingly globalised market, with an ever more hectic pace and increasingly complex needs, there is a resource that represents enormous wealth for companies, which is increasingly diminishing: **TIME**.

Deima's innovative procedures have been designed and optimised precisely to ensure total efficiency of the workflow, which translates into minimising the use of time and resources by the client.

WE TAKE RESPONSIBILITY

Technology provides multiple solutions to let clients perform most of the functions related to logistics: tracking shipments, releasing stocks, etc.

Deima instead acts in a totally different manner: we directly keep everything under control on a daily basis and we intervene promptly to solve every type of need and problem, without forcing the client to make an additional effort.

For Deima, the certainty of a job done to perfection.
For the Client, a considerable saving of time and resources.

WE PUT OURSELVES ON THE FRONT LINE

More and more in the logistics market, the tendency to automate assistance services is growing, through toll-free numbers, automatic responders and chatbots.

Also in this case, Deima operates in a diametrically opposite way, providing a totally personalised direct assistance service.

Each client has an assigned manager, with a name and surname, who ensures continuity and efficiency by following every type of need and problem.

For Deima, the certainty of a job carried out with competence and reactivity. For the Client, the guarantee of having a direct line always available for any need.

AT THE SPEED OF YOUR NEEDS

DIMEX is Deima's Express Shipping Service: from envelopes to pallets in 24 hours in Italy and between 24 and 72 hours abroad, depending on the destination.

DIMEX is a service that is at the top of its class, with absolutely excellent percentages of on-time delivery. A result achieved thanks to the quality of the processes and the use of advanced technologies by DEIMA, including:

- Optical reading barcode
- Satellite system for detecting the position and surveillance of vehicles
- Accurate control procedures at the places of departure, transit and destination

YOUR LOGISTICS UNDER CONTROL

DIMLOG is Deima's Logistics Management Service, which deals with the entire product handling management cycle: warehousing, receipt and composition of orders, management of shipments and payments.

DIMLOG is the ideal solution for companies that want to be sure of having everything under control, thanks to the advanced technology that Deima makes available:

- Automated warehouses
- Online platform for receiving orders
- Online platform for tracking shipments
- Stocks inventory in real time
- Continuous and personalised assistance
