DIMEX DIMLOG

Deima Srl was founded in 2006 to meet the precise logistics and shipping needs of the market, combining technological innovation with the competence and focus of its staff, to provide a service designed and tailored to client needs.

Deima's goal is to act as a one-stop shop for the company in the logistics and shipping field: a synergistic relationship that optimises resources, improves timing, facilitates communication and reduces costs.

JUST IN TIME, JUST IN FASHION

Shipping times are essential in a market that is characterised by a strong seasonality such as the fashion industry. This is the reason why Deima has developed special procedures of its own exclusively for fashion companies.

SPECIAL CARE:

Often the box in which footwear is packaged is the first vehicle of the Brand and the image of a Company. Deima knows and respects the passion and investment that shoe manufacturers have dedicated to the design and creation of boxes.

It is therefore essential that transportation is carried out with the utmost care and complete security, so that the customer can receive the product in an ideal condition. For this reason, Deima places the parcels of shipments in special containers that limit excessive overlap and ensure the integrity of the packaging, so that they reach the recipients without a scratch.

TOTAL SECURITY:

Deima's Priority & Security Pack provides for the priority of embarkation of shipments and the supply of special Burglar-proof seals, with holographic band and optical-read barcode, to fully guarantee the integrity of the shipment and the originality of the product.

LESS STOCKS, MORE SALES:

Deima proposes an additional telephone contact procedure to recipients to warn them of the arrival of shipments, in order to minimise stocks and rejection of goods.

FAST CASH-BACK:

Deima offers advantageous conditions for the collection of cash on delivery, a method still widespread in Italy, optimising return on investment times for manufacturers.

CONVENIENT, CLEAR AND TRANSPARENT RATES:

Deima offers Parcel Rates, for simple and quick cost and invoicing control.

TIME: **YOUR MOST PRECIOUS ASSET**

We know that, in an increasingly globalised market, with an ever more hectic pace and increasingly complex needs, there is a resource that represents enormous wealth for companies, which is increasingly diminishing: **TIME**.

Deima's innovative procedures have been designed and optimised precisely to ensure total efficiency of the workflow, which translates into minimising the use of time and resources by the client.

WE TAKE RESPONSIBILITY

Technology offers multiple solutions to let clients perform most of the functions related to logistics: tracking shipments, unblocking stocks, etc.

Deima instead acts in a totally different manner: we directly keep everything under control on a daily basis and we intervene promptly to solve every type of need and problem, without forcing the client to make an additional effort.

For Deima, the certainty of a job done to perfection.
For the Client, a considerable saving of time and resources.

WE PUT OURSELVES ON THE FRONT LINE

More and more in the logistics market, the tendency to automate assistance services is growing, through toll-free numbers, automatic responders and chatbots.

Also in this case, Deima operates in a diametrically opposite way, offering a totally personalised direct assistance service.

Each client has an assigned manager, with a name and surname, who ensures continuity and efficiency by following every type of need and problem.

For Deima, the certainty of work carried out with competence and reactivity. For the Client, the guarantee of having a direct line always available for any need.

AT THE SAME SPEED OF YOUR NEEDS

DIMEX is Deima's Express Shipping Service: from envelopes to pallets in 24 hours in Italy and between 24 and 72 hours abroad, depending on the destination.

DIMEX is a service that is at the top of its class, with absolutely excellent percentages of on-time delivery. A result achieved thanks to the quality of the processes and the use of advanced technologies by **DEIMA**, including:

- Optical reading barcode
- Satellite system for detecting the position and surveillance of vehicles
- Accurate control procedures at the places of departure, transit and destination

YOUR LOGISTICS UNDER CONTROL

DIMLOG is Deima's Logistics Management Service, which deals with the entire product handling management cycle: warehousing, receipt and composition of orders, management of shipments and payments.

DIMLOG is the ideal solution for companies that want to be sure of having everything under control, thanks to the advanced technology that Deima makes available:

- Automated warehouses
- Online platform for receiving orders
- Online platform for tracking shipments
- Stocks inventory in real time
- Continuous and personalised assistance
